Hampshire
hotel Delft
Centre

Your return on investment

- ★ A better understanding of the critical components of successful innovation and its implementation steps
- ★ Exposure to successful dementia care initiatives and strategies
- ★ An opportunity to meet and build relationships with key Dutch dementia care specialists
- ★ An opportunity to build professional relationships with other leaders in New Zealand Healthcare that take part in the Healthcare Study Tour
- ★ A challenge to continuously make a difference in the care for our elderly citizens in New Zealand

YOUR HOSTS

Healthcare Study Tours to the Netherlands are hosted by Jan and Marian Weststrate. Marian is a district nurse on the Kapiti Coast and Jan is a healthcare consultant (PhD) who specializes in analysing, reporting and advising on quality of care data in New Zealand. Both have over 40 years healthcare experience and worked in The Netherlands, the UK and New Zealand. They have been involved in various cross-cultural exchanges at a personal and professional level and experienced at first hand how these visits can inspire you to make the impossible possible.

Their approach to hosting is to help participants feel at home, safe and cared for, so they can make the most out of the programme without worrying about organisational issues. During these tours Jan and Marian are available 24/7 to provide support and guidance where needed.

The 2020 Healthcare Study Tour to the Netherlands

You are warmly invited to join Care-Metric on its fourth Healthcare Study Tour to The Netherlands April 19-24, 2020.

Focus

With a growing world-wide aging population and a rising number of elderly with dementia, the question is how to manage our healthcare systems on a limited budget, while still providing the best possible care?

What the Netherlands has to offer

The Netherlands is well known for its innovative, approach to eldercare, so once again our focus will be on talking to experts and visiting aged care facilities, hospitals and other supportive organizations that will encourage participants to think "outside the box".

Who should attend

Chief executives, directors of nursing, clinical managers, quality improvement specialists, dementia care experts, nurse practitioners focusing on the elderly, healthcare auditors, healthcare policy makers, Ministry of Health officials and members of Parliament responsible for eldercare.

When and where

The tour will start Sunday evening April 19th with an introduction meeting and ends on Friday April 24th. During the week we will stay in Delft at the comfortable Hampshire hotel. Travel to all venues will be on a 17-seater minibus with a designated driver.

We will visit

- ★ A healthcare insurance company
- ★ Several aged care facilities
- ★ A quality improvement institute
- ★ The Dutch Dementia Deltaplan project
- ★ The dementia village "De Hogeweyk"
- ★ The Dementia Green Care farm "Buitengewoon"

What did previous participants say

- ★ *"A fantastic opportunity to travel with likeminded people who want to develop models of care that keep our elderly vulnerable people at home well supported. The Netherlands has some stunning examples of such models we can learn from."* **Sandy Blake, Director of Nursing Whanganui District Health Board**
- ★ *"Extremely valuable week. Programme was excellent in its variations and content. Have got so much more out of it than I'd hoped."* **Dr. Kate Scott, Geriatrician, Capital and Coast District Health Board**

- ★ *"Jan and Marian put on a great tour and are to be commended for it. They were excellent hosts and looked after us very well. I got a great deal out of it and can't recommend it highly enough."* **David Hall, CEO Cambridge Resthaven**
